INJURY

Volume 11/1979–80

The British Journal
of Accident Surgery

Index

Volume 11/1979–1980

Index
Volume 11/1979–1980

Abstracts, 84, 171, 259, 339
Accident department, general, analysis of pattern of facial injuries in, 52
Acetabulum, ipsilateral central fracture of, with intertrochanteric fracture of femur, 251
Acromioclavicular joint, disruption of, 208
Acrylic cement, effect of, on union of internally fixed experimental femoral shaft fractures in the rabbit, 325
Aerobic capacity and muscle strength, decline of, following fractures of lower limb, 219
Aginsky J. and Reis N. D.: Present state of medullary nailing of femur: biomechanical limitations and problems of blood supply to fracture due to reaming, 190

Andrew T. A. and Milne D. D.: Pneumoperitoneum associated with pneumothorax or pneumopericardium, 65
Aneurysms, traumatic intrathoracic, 248
Ankle joint, external rotation and abduction fractures around; treated by internal fixing using AO instrumentation, 33
  osteochondromatosis of, causing talotibial impingement exostoses, 43
  rupture of lateral ligaments of, 215
AO instrumentation, internal fixing of external rotation and abduction fractures around ankle joint using, 33
Arden G. P.: *see* Rushton N.
Armour P.: *see* Coates R. L.
Arthroscopy, improved irrigation in, 336
Axillary artery occlusion with erect dislocation of shoulder, 155

Baijal E.: Method of internal fixation of supracondylar fractures of femur, 115
Bang R. L.: *see* Evans G. A.

Denham R. A.: *see* Edge A. J.
Diaphragm, acute blunt traumatic rupture of, in child, 62
Dislocation(s) or closed fractures of elbow, acute nerve injury as complication of, 159
  erect, of shoulder, axillary artery occlusion with, 155
  and fractures, correlation between clinical and radiological diagnosis for, in accident department, 225
Donors, renal, experience with 1000 potential cadaveric, 10
Double compression medullary nail, 197

Easton K. C.: Report of BASICS Annual Scientific Meeting, 1978, 101
Edge A. J. and Denham R. A.: Portsmouth method of external fixation of complicated tibial fractures, 13
Editorial, 1, 89
Elbow, closed fractures or dislocations of, acute nerve injury as complication of, 159
Emergency services system, development of Israeli example, 99
Evans G. A., Bang R. L., Cornah M. S. and Corps B. V. M.: Value of Hoffmann skeletal fixation in management of cross-leg flaps, particularly in injuries complicated by open fractures of tibia, 110
External fixation with coat hanger method in treatment of unstable fractures of pelvis, 254
  of complicated tibial fractures, Portsmouth method of, 13

Facial injuries, analysis of pattern of, in general accident department, 52
Fatigue fracture of bone plates, 203
Femur, fracture(s) of, associated with Moore's prosthesis, 23
  intertrochanteric, with ipsilateral central fracture of acetabulum, 251
  neck of, in childhood, 242
    prosthetic replacement of femoral head for, 309
  head of, prosthetic replacement for fractures of neck of femur, 309
  replacement following fracture, 317
  medullary nailing of: biomechanical limitations and problems of blood supply to fracture due to reaming, 190
  proximal fractures of, image intensifier as aid to insertion of Zickel nail apparatus for, 148
    in psychiatric patients, 19
  subcapital fractures of, in rheumatoid arthritis, 233
    treatment of, 132
  supracondylar fractures of, method of internal fixation of, 115
  unstable pertrochanteric fractures of, prospective controlled trial of valgus osteotomy in fixation of, 228
Fixation of unstable pertrochanteric fractures of femur, prospective controlled trial of valgus osteotomy in, 228
Fixation (*see also* External fixation, Internal fixation)
Fletcher I.: Aid, first and foremost: brief outline history of St John Ambulance Association and Brigade, 104
Forster I. W. and Lindsay J. A.: Image intensifier as aid to insertion of Zickel nail apparatus for proximal femoral fractures, 148
Fracture(s) of acetabulum, ipsilateral central, with intertrochanteric fracture of femur, 251
  closed, of elbow, acute nerve injury as complication of, 159
  Colles', study of triangular fibrocartilage of wrist joint in, 321
  and dislocations, correlation between clinical and radiological diagnosis for, in accident department, 225
  external rotation and abduction, around ankle joint treated by internal fixing using AO instrumentation, 33
  fatigue, of bone plates, 203
  of femoral head, replacement following, 317
  of femur, unstable pertrochanteric, prospective controlled trial of valgus osteotomy in fixation of, 228
    intertrochanteric, with ipsilateral central fracture of acetabulum, 251
    associated with Moore's prosthesis, 23
    proximal, in psychiatric patients, 19
  internally fixed experimental, of femoral shaft in the rabbit, effect of acrylic cement on union of, 325
  of lower limb, decline of aerobic capacity and muscle strength following, 219
  of neck of femur in childhood, 242
    prosthetic replacement of femoral head for, 309
  open, of shaft of tibia: analysis of wound and fracture treatment, 136
    of tibia, injuries complicated by, value of Hoffmann skeletal fixation in the management of cross-leg flaps in, 110
  proximal, of femur, image intensifier as aid to insertion of Zickel nail apparatus for, 148
  of shaft of tibia, retrospective review of healing of, 304
  subcapital, of femur in rheumatoid arthritis, 233

treatment by primary total hip replacement, 132
supracondylar, of femur, method of internal fixation of, 115
of thyroid cartilage associated with full face integral crash helmet, 47
of tibia, complicated, external fixation of, by Portsmouth method, 13
early weight bearing in treatment of, 123
unstable, of pelvis, external fixation with coat hanger method in treatment of, 254
